

FIRE AT Ogdensburg.—The Ogdensburg Daily Advertiser gives an account of a destructive fire at that place on Thursday evening. Four buildings were destroyed, as follows:

The three story building owned by C. S. Phelps, total \$10,000; a four story building \$4,000. Three story building owned by Mr. and Mrs. Angus Kerr. Building destroyed, goods not saved. Loss on building \$900; insurance \$800. Two story building owned by Harrington & Kenyon, a grocery office, paint shop and dwelling. Loss \$300; no insurance. The building part occupied by the Daily Advertiser, owned by Mr. Lankford and W. M. Moore, was also destroyed, and Miss Bates as milliner. Goods were salvaged.

ACCIDENT TO THE NILE.—We learn by a passenger on the Oregon that the Steamer Nile ran on the rocks this side of Mackinaw Tuesday night and leaked so badly that she had to return necessary repairs and a large quantity of merchandise. She succeeded in getting to Mackinaw where her passengers were transported to the Illinois. [Detroit Ad. 2d.]

THE OGDENSBURG (La.) GAZETTE says the road used in that parish destroyed bridges the value of which amounted to \$9,000.

Court Calendar.—**TUESDAY.**

SUPERIOR COURT.—Nos. 27, 30, 45, 47, 49, 50, 52, 53, 55, 57, 59, 60, 62, 66, 70, inclusive.

COURT PLATE.—Part I.—Nos. 100, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 172, 174. Part 2.—Nos. 27, 30, 32, 35, 36, 38, 39, 43, 45, 46, 48, 50, 52, 54, 55, 57, 59, 61, 63, 65, 67, 69, 71, 73, 75.

HOUSEHOLD MARKETS.

(Reported for The New York Tribune.)

APPLES.—The crop of Apples is by no means what it was supposed. Common sorts are not plenty, and very ready in at \$1 25 to \$1 75 per bushel. Newtown Pippins are very scarce and can scarcely be had at any price. Those that were sold yesterday brought \$2 25 to \$2 50 per bushel. We understand that there is a single Orchard in Westchester County which produces Pippins the present season.

PEARS.—Are still scarcer than Apples. Some of the poorer kinds can be had at 50 cents per basket—and poor enough they are, as every body knows. But Burkes, we are not at all certain about the spelling, although there is no mistake as to the flavor), sell as high as \$5 per basket. Sticks are scarce, and are worth 50¢ to 75 cents per basket.

PLUMS.—A few Frost Gages still remain, but they are scarce and higher, and bring readily \$2 25 per bushel. The Dawsons and other varieties are pretty much entirely gone.

PEACHES.—The Peach season is also nearly over, and the business is pretty much at a stand—where you generally buy them at the following quotations:

00000000000000000000
2 Two for 3 cents apiece.
00000000000000000000

The wholesale transactions are at about \$2 25 per basket.

GRAPES.—The Grape-yield also fails us, and we are informed that the crop at Croton Point will not be more than half that of last year. The price of Isabella yesterday was \$6 to \$8 per bushel. A few of other varieties have sold at prices from 15 to 20 cents per bushel.

GRANBERRIES.—This punget fruit has never been picked—large quantities being sold yesterday as low as \$2 50 per bushel.

POTATOES.—The Potato-crop is every where represented as a failure, in most places, in Washington County, in the Hudson River Valley. Long Island and New Haven were no exception, and those from the interior of the state represent a similar state of things, and prices are of course going up. The demand is active and cannot be supplied at \$1 50 to \$2 per bushel.

MFG.—There are no changes to notice in Manufacturing, Poultry, &c. although we believe changes have taken place in Eggs, which, however, still remain as before, twelve to the dozen of eleven pence.

MARRIED.

In this City, on Tuesday, Oct. 6, by Rev. Otis A. Skinner, WILLIAM H. HALLICK to ELIZA, eldest daughter of James S. Green, Esq.

DIED.

On Tuesday morning, 4th, with 4 years of her age, Mrs. ELIZABETH, widow of the late Michael Bayard.

Her friends and those of her son, Peter M. and John Bayard, and her sons-in-law, George and Robert Ridley, are respectfully requested to attend her funeral this Wednesday afternoon at 4 o'clock, from her late residence.

On Monday evening, Mr. HENRY LYNCH of this City, aged 22 years.

His relatives and friends of the family are respectfully invited to attend his funeral this afternoon at 4, from his residence, No. 301 Broadway, without further notice.

At Bristol, on the 1st inst. FANNY ANZUETTE, daughter of Josiah C. and Eliza Motter, aged six years.

COMMERCIAL AND MONEY MATTERS.

For sales of Stocks, &c. see Fourth Page.

THURSDAY, Oct. 7.

The Stock market continues to have a downward tendency, and the transactions are only to moderate extent. There is very little disposition to operate either buyers or sellers.

The Foreign Bill market is still dull although some day is near at hand. Sterling is plenty and selling at \$4 25—France \$3 20 to \$2 85. The large exports of produce must support the deficiency of bills arising from short exports of Cotton, and the quantity offering exceeds the demand.

Freights are moving upward, and the packets and transatlantic ships on the horn are engaged nearly full. Flour has been taken for Liverpool at 3s and Grain at 10s, which is an advance on both. To London as for Flour is asked. The freights in freight and scarcity of tonnage ready to receive loading has a tendency to arrest operations in Flour, Grain, &c. Flour to be delivered three weeks hence will bring 10s per barrel more than on the spot.

Mr. Walker, the Secretary of the Treasury, returns to Washington, to night we understand, entirely unsuccessful in his financial mission. He would give but 5 per cent interest. The Banks asked 6 per cent on Treasury Notes receivable for public uses. The Banks can lend all their means to their regular customers and there is no reason that they should make a loan to Government at anything less. A Government which has made the destruction of the Banks a chief object of its policy, comes with a poor grace as a subjunctive to those banks, and can not any longer be expected to do so. Probably the remittances home will soon be known.

We trust that the deposit Banks are and have been at some time properly met to meet such a movement. The story that large amounts of specie have recently been drawn from our Banks and sent to Washington, we have reason to believe is without foundation.

The amount received for tolls of all the New-York State Canals, during the last week in September, is \$113 542.

Some period in 1843.

Increased.

Mr. Butler, the Agent of the Indiana Bondholders, returned in the Hibernia. We understand that he met with a very favorable reception from the foreign bondholders and that there is no doubt that the arrangement will be carried out and the Canal finished.

The Receivers of the Farmers and Mechanics Bank of New Brunswick have made a dividend of nine cents on the dollar, on the certificates issued by them for the note of that bank.

The Hibernia Railroad has declared a dividend of \$4 per cent excepting the Salem Bank, which a 2 per cent. Village Bank, Danvers, 2 per cent. New Bedford, 2 per cent. of Salem, \$50,000. Last April, 1840.

The Banks of Portland have declared the following: Manufacturers and Traders Bank, 4 per cent.; Capital Bank, 2 per cent.; Merchants Bank, 4, Bank of Cumberland, 3.

The Marine Bank of Baltimore has declared a dividend of 3 per cent for the last half year.

The Cincinnati Chronicle states that receipts on the Mad River Railroad are already at the rate of eighty thousand dollars per annum. The receipts of the Little Miami and the Mad River together are now in an unconnected state, two hundred thousand dollars per annum.

Bicknell's Reporter says: Our Money market continues easy. First rate paper is readily negotiable at 5 per cent. The Banks complain of a want of application of the right kind. This condition of affairs exhibits a small change within a few weeks; but we think it will probably that before January, as a great change will take place in the market. The Fall trade is still progressing, and the opinion is almost universal that, in the aggregate, it will prove quite moderate.

It is supposed that the Company chartered last week for the purpose will buy the Southern (Mich.) Railroad at \$500,000. They have 60 days after the decision

of the Central Railroad Co. to make their decision. This amount is about one half the cost to the State—the Central Railroad passed into the hands of the new Company on the 25th September, the \$8,000,000 required by the act of sale having been paid into the State Treasury. The receipts for the month of August were as follows:

From passengers.....	1846.
From freight.....	121,250 49.
Total.....	111,151 72.
For carrying U. S. Mail.....	99,900
Total.....	\$22,411 31.
	\$14,081 93.

The last twenty miles from Montreal of the St. Lawrence and Atlantic Railroad have been put under contract. Before the winter sets in the grading of both sides of the great line from the Atlantic to the St. Lawrence will commence.

Markets.—See *Carefully reported for The Tribune.*

TUESDAY, Oct. 6.

ASHES.—The market for Pots is steady at \$1. Pots the sales are not very large, but there is a good inquiry.

GOTTON.—The sales yesterday turned out to have been near 4000 bushels. This day there have been an even demand and the sales amount to 3000 bushels at very full prices and clearly on speculation.

UPLAND.—The market for Potash is steady at \$1. Pots the sales are not very large, but there is a good inquiry.

COFFEE.—The sales yesterday turned out to have been near 4000 bushels. This day there have been an even demand and the sales amount to 3000 bushels at very full prices and clearly on speculation.

FLOUR AND MEAL.—There were sales yesterday for flour and meal of 1000 bushels at \$1 50 to \$1 60 per bushel, which was about the average price.

WHEAT.—The market for Wheat is steady at \$1 50 to \$1 60 per bushel. The sales were not very large, but there is a good inquiry.

MAIZE.—The market for Maize is steady at \$1 50 to \$1 60 per bushel.
